**INFORMATION
SMI OPERATOR CERTIFICATION REQUIREMENTS**

12 NCAC 9B.0409(a) requires a trainee to demonstrate:

?? successful completion of a Commission-accredited operators course;

AND

?? 100 percent proficiency in motor skill and performance subject areas;

AND

?? completion of 16 hours of supervised field practice within 90 days of course completion.

Documentation of prior North Carolina SMI Operators certification **OR** evidence from another state showing prior certification which meets or exceeds that of North Carolina may be substituted for the field practice requirement. However, if the prior certification was for stationary only instruments and certification is sought for instruments with moving capabilities, the trainee must complete eight (8) hours of practice in moving configurations. If the prior certification was for moving instruments and certification is sought for instruments with same direction mode, the trainee must complete four (4) hours of practice in same direction mode.

The SMI 15 form entitled **RADAR OPERATOR FIELD INSTRUCTION/PRACTICE LOG** will be utilized to document this practice/training prior to issuance of an operators certificate.

NOTE: Copy of course completion and certification must accompany this document. If no prior training exists, the 16-hours of supervised field practice **must** be completed on the SMI-15 Form

**TO RECEIVE CREDIT FOR PRIOR CERTIFICATION
DOCUMENTATION MUST BE ATTACHED**

INSTRUCTIONS

This form must be completed in its entirety by each trainee who does not have a prior N.C. SMI Certification. This form must be **received** by the Criminal Justice Standards Division at P.O. Drawer 149, Raleigh, N.C. 27602 within **90 days** of completion of a Commission-accredited Radar or Radar/Time-Distance Operator Course in order to receive operator certification. 12 NCAC 9B.0409(a)(4). During this practice period, a trainee may not issue a citation for an offense that requires admission as evidence of the instrument reading pursuant to G.S. 8-50.2. A minimum of sixteen (16) hours of supervised field practice is required. If trainee possesses a prior stationary-only certification, an hourly log must be submitted and may contain a minimum of eight (8) hours of supervised field practice, but must be in moving mode configurations. If the prior certification was for moving instruments and certification is sought for instruments with same direction mode, the trainee must complete four (4) hours of practice in same direction mode. Field practice shall be conducted under supervision of a certified SMI Operator or Instructor certified on the instrument being utilized and under realistic conditions. Breaks, such as responding to calls, meal periods etc., may not be included within the practice hours. If trainee is seeking certification on more than one instrument, he/she must utilize the instrument containing the most features. If the instrument utilized has multiple functions and modes, the eight (8) hours (in the case of prior stationary-only certification), or sixteen (16) hours (without prior certification), shall be evenly divided among the Aapproved configurations being sought by the trainee. During field practice/instruction, trainees shall follow the Atesting for accuracy and operating procedures outlined in Appendix AC of the Supplement for SMI Training Courses published by the N.C. Justice Academy.
